A photograph of a group of people seated at round tables in a grand, historic hall with high ceilings and large columns. They are clapping and looking towards the front of the room. The image is overlaid with a blue gradient at the bottom containing text and logos.

## Clean Transportation Rally at Richmond's Main Street Station

April 2, 2026 from 2-8 p.m.

Presented By: 

## Join us in Celebrating VCC's 30th Anniversary!

2026 marks the 30th year of service for Virginia Clean Cities! Celebrate with us at our annual Rally in Richmond at Main Street Station on April 2nd. Listen in on panels about clean heavy duty vehicles, legislative updates, and more. Enjoy the vehicle expo outside and then come in for a reception and award ceremony. Learn more below and join us next month!

### Details

- Date and Time: April 2, 2026 from 2-8 PM
- Location: Richmond's Historic Main Street Station
- Address: 1500 E Main St., Richmond, VA 23219

This event is **FREE** for fleet managers and active VCC Stakeholders!

### Dominion EV Charging Access Program

Dominion Energy Virginia's Electric Vehicle Charging Access Program is designed to expand access to EV charging in underserved communities across the Commonwealth. The first of two webinars, this session is tailored specifically for Level 2 and private site owners interested in installing Level 2 EV charging stations at their properties. Eligible sites can receive turn-key EV charging infrastructure and more **at no cost**.

### Washington County Shares Experience With Propane School Buses

Two Washington Counties, two school leaders and two fleet managers came together in February with a shared focus: exploring the transition from diesel to propane-powered school buses.

This piece highlights the insights, challenges, and solutions that propane fuel provides in the region.

## MAATSE Call for Proposals

Have insights, a special project, or experience in the transportation energy space that you would like to speak on to an audience? For our inaugural conference in July, we invite proposals that advance safer, cleaner, more equitable, and more efficient transportation across the Mid-Atlantic. **Applications are due March 30th!**

[Make your voice heard](#)

## Plug in America Electric Vehicle Survey

What's your perception of electric vehicles? Whether you drive one or not, your perspective matters. Plug In America wants to hear from U.S. drivers in their Annual EV Survey. Each year, they use this survey data to get a pulse on topics such as charging, dealerships, purchase considerations, barriers to adoption, and more. Once the analysis is complete, they will share it with the public.

[Take the Survey](#)

## EPA Seeks Input on Clean School Bus Program

The U.S. Environmental Protection Agency is seeking your input on alternative fuel technologies for school buses. The federal agency will use this information to design the Clean School Bus funding program.

The EPA asks for information on the viability, cost, and performance of alternative school bus fuels and technologies. Public comment will be accepted through April 6th.
